Introduction Public libraries are free and accessible to all and are centers of community engagement and education, making them logical choices as partners for improving population health. Library staff members routinely assist patrons with unmet health and social needs.

Public Libraries As Partners for Health

These channels made opportunities for community partners and librarians to get to know one another and build positive relationships. I found that when community folks are invested in a project, they are passionate about it. Thus, they promote it more, want it to be successful and take the initiative to help make it work.
