Ly7 Engine Commodore

The GM High Feature engine (also known as the HFV6, and including the 3600 LY7 and derivative LP1) is a family of modern General Motors DOHC V6 engines. The series was introduced in 2004 with the Cadillac CTS and the Holden Commodore (VZ). It is a 60° 24-valve design with aluminum block and heads and Sequential multi-port fuel injection.

GM High Feature engine - Wikipedia

Whereas the LE0 engine was used in the entry-level VZ and VE Commodore -based models, the LY7 was reserved for the sports or premium models such as the Commodore SV6, Calais, Statesman and Caprice. The LY7 engine was also used in the VZ Adventra due to the additional mass of its all-wheel drive system. LY7 block and internals

It was not the first Holden Commodore-based vehicle to be powered by a 7.0L LS7 V8 engine as that honour went to the more affordable Corsa Specialised Vehicles GTS. [112] Total production by colour option

Holden Commodore (VE) - Wikipedia

By buying a VE Commodore, new in its day or second hand now, you are willingly putting your hand up to be a guinea-pig to test the new platform. The single greatest issue is the timing chain fault that the V6 engine is very common for. Unfortunately the Holden V6 is known for stretched timing chains which is a very costly fix.

Manufactured in Port Melbourne, Australia, the Holden LE0 'Alloytec' V6 engine was available from 2004 to 2010. Developed by GM Powertrain, the LE0 was part of General Motors' High Feature V6 (HFV6) engine family; within General Motors' 'Regular Production Option' (RPO) system, 'LE0' was the code for the reduced output HFV6 engine.

How to change the engine oil filter - VE and VF Holden ...

The Alloytec V6 is a largely overlooked engine, yet the technological updates it brought to the Commodore means it produces a crazy amount of extra horsepower very easily when supercharged. With around 400rwhp with just 12psi of boost and only an updated intake plenum there is no previous Holden V6 that even comes close.
