Open Shade White Balance (left) gives the scene more warmth, but Auto White Balance (right) results in whiter whites. Auto White Balance (right) warms up the ship's interior, which was lit by incandescent light, but the Incandescent setting (left) captures all the tones as they really were, adding a feeling of depth to the scene.

What Is White Balance? | White Balance in Photography ...

The Nikon D3300 allows you create a preset white balance based on an existing photo. Two words of caution are appropriate. First, basing white balance on an existing photo works only in strictly controlled lighting situations, where the color temperature of the lights is consistent from day to day. Second, if you previously created a [...]

Match White Balance on the Nikon D3300 - dummies

White balance can be selected using the White balance option in the shooting menu, which also can be used to fine-tune white balance or measure a value for preset white balance. Read Online Nikon D3200 White Balance Manual

Online Photography School The Correct White Balance I find the 'auto-white-balance' (AWB) of the Canon X0D, XX0D series cameras to be on the 'cool' side. Images are simply 'cooler' than what was 'before my eyes' when I took the picture. This is easily remedied by setting white balance to match your shooting conditions. If it's sunny out, set white balance to 'sunny' If it's cloudy out, set ...
