The two dog-clutch styles (the OMC Cobra and the King Cobra) are separated only by their exhaust location; prop exhaust and through-hull exhaust, respectively. The cone-clutch style is also called a King Cobra. It is often considered the most durable of the three as it does not share in the same problems known with the dog-clutch. It can be ..

I have a 1990 OMC Cobra, it cranks but will not start. I used a spark tester and getting no spark at all. I bypassed the saftety switch to eliminate that possibility. I used a meter on the shift interupter and it works fine. Last year a mechanic said that my alternator was shot causing the boat not to start, replaced the alternator last year.
