The election has not yet been certified but consumer advocates are already demanding that the upcoming Biden-era FCC restore the net neutrality rules, which would enable the agency to heavily regulate ISPs. These net neutrality proponents argue that: Broadband internet access service (BIAS) must be classified as a Title II telecommunications service to enable the Internet to be regulated as a ...

The Future of Net Neutrality | CCMH HUB

At the same time, the lack of net neutrality regulation has not so far seen the egregious commercial ISP behaviour expected by the pro-neutrality brigade. So there may be a patch of scorched earth in no-man's land upon which the empathetic Mr Biden and his FCC can set up camp.It could be that net neutrality regulation (hated by many) is best held in reserve to ensure good behaviour.
